

(C) He shall have the power to make affidavit for warrant of arrest for the violation of any of the provisions of this Ordinance and to compel the suspension of any electrical work being done in a manner prohibited by this Ordinance.

(D) It shall be unlawful for any person, firm or corporation to hinder or interfere with the Electrical Inspector in the discharge of his duties under this Ordinance.

(E) The Electrical Inspector may delegate any of his duties to any of his assistants.

#### SECTION 5. Installation Standards.

All installations shall be in strict conformity with provisions of this Ordinance, the statutes of the State of Arkansas; the rules and regulations issued under authority of the State statutes, and shall be in conformity with approved standards of construction for safety to life and property. In every case where no specific type or class of material, or no specific standard of construction are prescribed by the statutes of the State of Arkansas, the regulations issued under the authority of the State statutes, or the rules and regulations issued under authority of the National Electrical Code, as approved by the American Standards Association, and other installation and safety regulations approved by the American Standards Association shall be prima facie evidence of conformity with approved standards of construction for safety to life and property.

(A) No electrical apparatus, fitting or material shall be used or placed on site, unless such apparatus, fitting or material is approved by the Electrical Inspector. The Electrical Inspector is authorized to require such apparatus, fittings, or material, without requiring further tests thereof to be made.

#### (B) APPROVED WIRING METHODS:

1. Rigid Metal Conduit.
2. Electrical Metallic Tubing.
3. Flexible Metal Conduit.
4. Armored Cable.
5. Surface Metal Raceways.
6. Underlaid Raceways.
7. Cellular Metal Floor Raceways.
8. Wireways.
9. Runways.
10. Concealed Knob and Tube.
11. Open Wiring Insulators.
12. Non-Metallic Sheathed Cable.
13. Non-Metallic Sheathed Cable.
14. Non-Metallic Sheathed Cable.
15. Non-Metallic Sheathed Cable.

#### (C) OPEN WIRING METHODS:

1. Open wiring shall be used in the following places or for the following purposes:
- a. In location where corrective action by the Electrical Inspector is required.
- b. In location where corrective action by the Electrical Inspector is required.
- c. In location where corrective action by the Electrical Inspector is required.
- d. In location where corrective action by the Electrical Inspector is required.
- e. In location where corrective action by the Electrical Inspector is required.
- f. In location where corrective action by the Electrical Inspector is required.
- g. In location where corrective action by the Electrical Inspector is required.
- h. In location where corrective action by the Electrical Inspector is required.
- i. In location where corrective action by the Electrical Inspector is required.
- j. In location where corrective action by the Electrical Inspector is required.
- k. In location where corrective action by the Electrical Inspector is required.
- l. In location where corrective action by the Electrical Inspector is required.
- m. In location where corrective action by the Electrical Inspector is required.
- n. In location where corrective action by the Electrical Inspector is required.
- o. In location where corrective action by the Electrical Inspector is required.
- p. In location where corrective action by the Electrical Inspector is required.
- q. In location where corrective action by the Electrical Inspector is required.
- r. In location where corrective action by the Electrical Inspector is required.
- s. In location where corrective action by the Electrical Inspector is required.
- t. In location where corrective action by the Electrical Inspector is required.
- u. In location where corrective action by the Electrical Inspector is required.
- v. In location where corrective action by the Electrical Inspector is required.
- w. In location where corrective action by the Electrical Inspector is required.
- x. In location where corrective action by the Electrical Inspector is required.
- y. In location where corrective action by the Electrical Inspector is required.
- z. In location where corrective action by the Electrical Inspector is required.

#### (D) CONDUITS, RACEWAYS AND TUBING WORK SHALL BE:

1. Conduits, raceways and tubing shall be used only in the following places or for the following purposes:
- a. In location where corrective action by the Electrical Inspector is required.
- b. In location where corrective action by the Electrical Inspector is required.
- c. In location where corrective action by the Electrical Inspector is required.
- d. In location where corrective action by the Electrical Inspector is required.
- e. In location where corrective action by the Electrical Inspector is required.
- f. In location where corrective action by the Electrical Inspector is required.
- g. In location where corrective action by the Electrical Inspector is required.
- h. In location where corrective action by the Electrical Inspector is required.
- i. In location where corrective action by the Electrical Inspector is required.
- j. In location where corrective action by the Electrical Inspector is required.
- k. In location where corrective action by the Electrical Inspector is required.
- l. In location where corrective action by the Electrical Inspector is required.
- m. In location where corrective action by the Electrical Inspector is required.
- n. In location where corrective action by the Electrical Inspector is required.
- o. In location where corrective action by the Electrical Inspector is required.
- p. In location where corrective action by the Electrical Inspector is required.
- q. In location where corrective action by the Electrical Inspector is required.
- r. In location where corrective action by the Electrical Inspector is required.
- s. In location where corrective action by the Electrical Inspector is required.
- t. In location where corrective action by the Electrical Inspector is required.
- u. In location where corrective action by the Electrical Inspector is required.
- v. In location where corrective action by the Electrical Inspector is required.
- w. In location where corrective action by the Electrical Inspector is required.
- x. In location where corrective action by the Electrical Inspector is required.
- y. In location where corrective action by the Electrical Inspector is required.
- z. In location where corrective action by the Electrical Inspector is required.

#### (E) CONDUITS, RACEWAYS AND TUBING WORK SHALL BE:

1. Conduits, raceways and tubing shall be used only in the following places or for the following purposes:
- a. In location where corrective action by the Electrical Inspector is required.
- b. In location where corrective action by the Electrical Inspector is required.
- c. In location where corrective action by the Electrical Inspector is required.
- d. In location where corrective action by the Electrical Inspector is required.
- e. In location where corrective action by the Electrical Inspector is required.
- f. In location where corrective action by the Electrical Inspector is required.
- g. In location where corrective action by the Electrical Inspector is required.
- h. In location where corrective action by the Electrical Inspector is required.
- i. In location where corrective action by the Electrical Inspector is required.
- j. In location where corrective action by the Electrical Inspector is required.
- k. In location where corrective action by the Electrical Inspector is required.
- l. In location where corrective action by the Electrical Inspector is required.
- m. In location where corrective action by the Electrical Inspector is required.
- n. In location where corrective action by the Electrical Inspector is required.
- o. In location where corrective action by the Electrical Inspector is required.
- p. In location where corrective action by the Electrical Inspector is required.
- q. In location where corrective action by the Electrical Inspector is required.
- r. In location where corrective action by the Electrical Inspector is required.
- s. In location where corrective action by the Electrical Inspector is required.
- t. In location where corrective action by the Electrical Inspector is required.
- u. In location where corrective action by the Electrical Inspector is required.
- v. In location where corrective action by the Electrical Inspector is required.
- w. In location where corrective action by the Electrical Inspector is required.
- x. In location where corrective action by the Electrical Inspector is required.
- y. In location where corrective action by the Electrical Inspector is required.
- z. In location where corrective action by the Electrical Inspector is required.

#### (F) CONDUITS, RACEWAYS AND TUBING WORK SHALL BE:

1. Conduits, raceways and tubing shall be used only in the following places or for the following purposes:
- a. In location where corrective action by the Electrical Inspector is required.
- b. In location where corrective action by the Electrical Inspector is required.
- c. In location where corrective action by the Electrical Inspector is required.
- d. In location where corrective action by the Electrical Inspector is required.
- e. In location where corrective action by the Electrical Inspector is required.
- f. In location where corrective action by the Electrical Inspector is required.
- g. In location where corrective action by the Electrical Inspector is required.
- h. In location where corrective action by the Electrical Inspector is required.
- i. In location where corrective action by the Electrical Inspector is required.
- j. In location where corrective action by the Electrical Inspector is required.
- k. In location where corrective action by the Electrical Inspector is required.
- l. In location where corrective action by the Electrical Inspector is required.
- m. In location where corrective action by the Electrical Inspector is required.
- n. In location where corrective action by the Electrical Inspector is required.
- o. In location where corrective action by the Electrical Inspector is required.
- p. In location where corrective action by the Electrical Inspector is required.
- q. In location where corrective action by the Electrical Inspector is required.
- r. In location where corrective action by the Electrical Inspector is required.
- s. In location where corrective action by the Electrical Inspector is required.
- t. In location where corrective action by the Electrical Inspector is required.
- u. In location where corrective action by the Electrical Inspector is required.
- v. In location where corrective action by the Electrical Inspector is required.
- w. In location where corrective action by the Electrical Inspector is required.
- x. In location where corrective action by the Electrical Inspector is required.
- y. In location where corrective action by the Electrical Inspector is required.
- z. In location where corrective action by the Electrical Inspector is required.

#### (G) CONDUITS, RACEWAYS AND TUBING WORK SHALL BE:

1. Conduits, raceways and tubing shall be used only in the following places or for the following purposes:
- a. In location where corrective action by the Electrical Inspector is required.
- b. In location where corrective action by the Electrical Inspector is required.
- c. In location where corrective action by the Electrical Inspector is required.
- d. In location where corrective action by the Electrical Inspector is required.
- e. In location where corrective action by the Electrical Inspector is required.
- f. In location where corrective action by the Electrical Inspector is required.
- g. In location where corrective action by the Electrical Inspector is required.
- h. In location where corrective action by the Electrical Inspector is required.
- i. In location where corrective action by the Electrical Inspector is required.
- j. In location where corrective action by the Electrical Inspector is required.
- k. In location where corrective action by the Electrical Inspector is required.
- l. In location where corrective action by the Electrical Inspector is required.
- m. In location where corrective action by the Electrical Inspector is required.
- n. In location where corrective action by the Electrical Inspector is required.
- o. In location where corrective action by the Electrical Inspector is required.
- p. In location where corrective action by the Electrical Inspector is required.
- q. In location where corrective action by the Electrical Inspector is required.
- r. In location where corrective action by the Electrical Inspector is required.
- s. In location where corrective action by the Electrical Inspector is required.
- t. In location where corrective action by the Electrical Inspector is required.
- u. In location where corrective action by the Electrical Inspector is required.
- v. In location where corrective action by the Electrical Inspector is required.
- w. In location where corrective action by the Electrical Inspector is required.
- x. In location where corrective action by the Electrical Inspector is required.
- y. In location where corrective action by the Electrical Inspector is required.
- z. In location where corrective action by the Electrical Inspector is required.

#### (H) CONDUITS, RACEWAYS AND TUBING WORK SHALL BE:

1. Conduits, raceways and tubing shall be used only in the following places or for the following purposes:
- a. In location where corrective action by the Electrical Inspector is required.
- b. In location where corrective action by the Electrical Inspector is required.
- c. In location where corrective action by the Electrical Inspector is required.
- d. In location where corrective action by the Electrical Inspector is required.
- e. In location where corrective action by the Electrical Inspector is required.
- f. In location where corrective action by the Electrical Inspector is required.
- g. In location where corrective action by the Electrical Inspector is required.
- h. In location where corrective action by the Electrical Inspector is required.
- i. In location where corrective action by the Electrical Inspector is required.
- j. In location where corrective action by the Electrical Inspector is required.
- k. In location where corrective action by the Electrical Inspector is required.
- l. In location where corrective action by the Electrical Inspector is required.
- m. In location where corrective action by the Electrical Inspector is required.
- n. In location where corrective action by the Electrical Inspector is required.
- o. In location where corrective action by the Electrical Inspector is required.
- p. In location where corrective action by the Electrical Inspector is required.
- q. In location where corrective action by the Electrical Inspector is required.
- r. In location where corrective action by the Electrical Inspector is required.
- s. In location where corrective action by the Electrical Inspector is required.
- t. In location where corrective action by the Electrical Inspector is required.
- u. In location where corrective action by the Electrical Inspector is required.
- v. In location where corrective action by the Electrical Inspector is required.
- w. In location where corrective action by the Electrical Inspector is required.
- x. In location where corrective action by the Electrical Inspector is required.
- y. In location where corrective action by the Electrical Inspector is required.
- z. In location where corrective action by the Electrical Inspector is required.

#### (I) CONDUITS, RACEWAYS AND TUBING WORK SHALL BE:

1. Conduits, raceways and tubing shall be used only in the following places or for the following purposes:
- a. In location where corrective action by the Electrical Inspector is required.
- b. In location where corrective action by the Electrical Inspector is required.
- c. In location where corrective action by the Electrical Inspector is required.
- d. In location where corrective action by the Electrical Inspector is required.
- e. In location where corrective action by the Electrical Inspector is required.
- f. In location where corrective action by the Electrical Inspector is required.
- g. In location where corrective action by the Electrical Inspector is required.
- h. In location where corrective action by the Electrical Inspector is required.
- i. In location where corrective action by the Electrical Inspector is required.
- j. In location where corrective action by the Electrical Inspector is required.
- k. In location where corrective action by the Electrical Inspector is required.
- l. In location where corrective action by the Electrical Inspector is required.
- m. In location where corrective action by the Electrical Inspector is required.
- n. In location where corrective action by the Electrical Inspector is required.
- o. In location where corrective action by the Electrical Inspector is required.
- p. In location where corrective action by the Electrical Inspector is required.
- q. In location where corrective action by the Electrical Inspector is required.
- r. In location where corrective action by the Electrical Inspector is required.
- s. In location where corrective action by the Electrical Inspector is required.
- t. In location where corrective action by the Electrical Inspector is required.
- u. In location where corrective action by the Electrical Inspector is required.
- v. In location where corrective action by the Electrical Inspector is required.
- w. In location where corrective action by the Electrical Inspector is required.
- x. In location where corrective action by the Electrical Inspector is required.
- y. In location where corrective action by the Electrical Inspector is required.
- z. In location where corrective action by the Electrical Inspector is required.

#### (J) CONDUITS, RACEWAYS AND TUBING WORK SHALL BE:

1. Conduits, raceways and tubing shall be used only in the following places or for the following purposes:
- a. In location where corrective action by the Electrical Inspector is required.
- b. In location where corrective action by the Electrical Inspector is required.
- c. In location where corrective action by the Electrical Inspector is required.
- d. In location where corrective action by the Electrical Inspector is required.
- e. In location where corrective action by the Electrical Inspector is required.
- f. In location where corrective action by the Electrical Inspector is required.
- g. In location where corrective action by the Electrical Inspector is required.
- h. In location where corrective action by the Electrical Inspector is required.
- i. In location where corrective action by the Electrical Inspector is required.
- j. In location where corrective action by the Electrical Inspector is required.
- k. In location where corrective action by the Electrical Inspector is required.
- l. In location where corrective action by the Electrical Inspector is required.
- m. In location where corrective action by the Electrical Inspector is required.
- n. In location where corrective action by the Electrical Inspector is required.
- o. In location where corrective action by the Electrical Inspector is required.
- p. In location where corrective action by the Electrical Inspector is required.
- q. In location where corrective action by the Electrical Inspector is required.
- r. In location where corrective action by the Electrical Inspector is required.
- s. In location where corrective action by the Electrical Inspector is required.
- t. In location where corrective action by the Electrical Inspector is required.
- u. In location where corrective action by the Electrical Inspector is required.
- v. In location where corrective action by the Electrical Inspector is required.
- w. In location where corrective action by the Electrical Inspector is required.
- x. In location where corrective action by the Electrical Inspector is required.
- y. In location where corrective action by the Electrical Inspector is required.
- z. In location where corrective action by the Electrical Inspector is required.

There shall be provided one spare circuit in panel board for each sign.

(D) An individual circuit shall be provided for buildings where provisions are made for attic ventilation.

#### SECTION 8. Application for Inspection and Permit.

Before proceeding with the installation, alteration or the addition to any electrical wiring or equipment within or on any building, structure or premises, publicly or privately owned, the Master Electrician in charge of such proposed work shall first file with the Electrical Inspector an application requesting inspection and secure a permit therefor, except that no permit will be required to execute any of the classes of electrical work specified in the following paragraphs A to C, inclusive:

(A) The replacement of lamps or the connection of portable electrical equipment to suitable permanently installed receptacles.

(B) The installation, alteration, or repair of electrical equipment installed by or for an electrical supply agency for the use of such agency in the generation, transmission, distribution of electricity.

(C) Master Electricians under provisions of paragraph B Section 10 shall have the privilege of making minor repairs or alterations where material and labor does not exceed \$10.00 without first taking out a permit.

(D) Applications for such inspection and permit describing the work done shall be made to the Electrical Inspector by the Master Electrician installing the work, shall give the exact street number of the premises on which work done, date inspection is desired, name of the owner or occupant, name of the electrician doing work and class of wiring.

(E) On all applications where plans and specifications require installation above the minimum standards set forth in this code, the plans and specifications for such work shall be accompanied with application described in such plans and specifications without the written approval of the owner or architect.

(F) All inspection fees are due immediately upon final inspection and the certificate of approval shall not be issued until the fees are paid.

(G) Master Electricians shall at all times keep the Electrical Inspector notified of the progress of their work and shall request inspections as the work progresses. The Electrical Inspector shall inspect after receiving notice. The Electrical Inspector shall leave a tag which he shall state that the work has been inspected and approved or that it is not approved and must be held open for correction, and if the wiring is to be held open for inspection no person shall work on it in any other manner until it is approved.

(H) Master Electricians making alterations or additions to existing electrical systems shall before proceeding with such work ascertain from the Electrical Inspector what old work must be changed or must be brought up to the requirements of this Ordinance.

(I) Master Electricians shall have all electrical work installed by them inspected before such work is covered or concealed. All cabinets and panel board covers or trim shall be left off for final inspection, any fittings or cover that conceals any wiring which may hinder the proper inspection of electrical work shall be removed by Master Electrician at the request of the Electrical Inspector. It shall be unlawful for any Master Electrician or any other person to install any electrical work in the City of Hope, Arkansas, to which current of any nature or description, without first obtaining a clearance from the Electrical Inspector, stating that such wiring is approved and a permit has been issued for the use of current.

(J) Whenever any electrical conductor or electrical materials in or on any building or any electrical conductor on any pole line or any conductor underground becomes or is in a condition that is dangerous to life or property, the Electrical Inspector is hereby empowered to disconnect, have disconnected, and cause the owner of such conductor or material to immediately correct same or have it removed.

#### SECTION 9. Fees for Inspection, Fees for Roughing in Work.

1. Minimum fee for roughing-in work, and the first four circuits.
2. .50 per circuit for the next ten circuits.
3. .25 per circuit for all circuits thereafter.
4. 1.50 fee for final inspection.
5. 1.50 fee for first 50 fixtures.
6. .50 fee for each additional 50 fixtures.

#### SECTION 10. REPLACEMENTS OF SERVICE ENTRANCE EQUIPMENT.

1. .50 per service up to and including 50 amperes.
2. .50 per service up to and including 100 amperes.
3. .50 per service up to and including 200 amperes.
4. .50 per service up to and including 400 amperes.
5. .50 per service up to and including 600 amperes.
6. .50 per service over 600 amperes.

#### SECTION 11. MOTOR OR GENERATOR INSPECTION.

1. Minimum \$1.00 up to and including 1 H. P.
2. .10 for each additional H. P. or fraction thereof connected up to and including 300 H. P.
3. .10 for each additional H. P. or fraction thereof over 300 H. P.
4. .10 for each additional H. P. or fraction thereof over 300 H. P.

#### SECTION 12. MISCELLANEOUS.

1. .10 per circuit for sign and outdoor lighting.
2. .10 per circuit for sign and outdoor lighting.
3. .10 per circuit for sign and outdoor lighting.
4. .10 per circuit for sign and outdoor lighting.
5. .10 per circuit for sign and outdoor lighting.
6. .10 per circuit for sign and outdoor lighting.
7. .10 per circuit for sign and outdoor lighting.
8. .10 per circuit for sign and outdoor lighting.
9. .10 per circuit for sign and outdoor lighting.
10. .10 per circuit for sign and outdoor lighting.
11. .10 per circuit for sign and outdoor lighting.
12. .10 per circuit for sign and outdoor lighting.
13. .10 per circuit for sign and outdoor lighting.
14. .10 per circuit for sign and outdoor lighting.
15. .10 per circuit for sign and outdoor lighting.
16. .10 per circuit for sign and outdoor lighting.
17. .10 per circuit for sign and outdoor lighting.
18. .10 per circuit for sign and outdoor lighting.
19. .10 per circuit for sign and outdoor lighting.
20. .10 per circuit for sign and outdoor lighting.
21. .10 per circuit for sign and outdoor lighting.
22. .10 per circuit for sign and outdoor lighting.
23. .10 per circuit for sign and outdoor lighting.
24. .10 per circuit for sign and outdoor lighting.
25. .10 per circuit for sign and outdoor lighting.
26. .10 per circuit for sign and outdoor lighting.
27. .10 per circuit for sign and outdoor lighting.
28. .10 per circuit for sign and outdoor lighting.
29. .10 per circuit for sign and outdoor lighting.
30. .10 per circuit for sign and outdoor lighting.
31. .10 per circuit for sign and outdoor lighting.
32. .10 per circuit for sign and outdoor lighting.
33. .10 per circuit for sign and outdoor lighting.
34. .10 per circuit for sign and outdoor lighting.
35. .10 per circuit for sign and outdoor lighting.
36. .10 per circuit for sign and outdoor lighting.
37. .10 per circuit for sign and outdoor lighting.
38. .10 per circuit for sign and outdoor lighting.
39. .10 per circuit for sign and outdoor lighting.
40. .10 per circuit for sign and outdoor lighting.
41. .10 per circuit for sign and outdoor lighting.
42. .10 per circuit for sign and outdoor lighting.
43. .10 per circuit for sign and outdoor lighting.
44. .10 per circuit for sign and outdoor lighting.
45. .10 per circuit for sign and outdoor lighting.
46. .10 per circuit for sign and outdoor lighting.
47. .10 per circuit for sign and outdoor lighting.
48. .10 per circuit for sign and outdoor lighting.
49. .10 per circuit for sign and outdoor lighting.
50. .10 per circuit for sign and outdoor lighting.
51. .10 per circuit for sign and outdoor lighting.
52. .10 per circuit for sign and outdoor lighting.
53. .10 per circuit for sign and outdoor lighting.
54. .10 per circuit for sign and outdoor lighting.
55. .10 per circuit for sign and outdoor lighting.
56. .10 per circuit for sign and outdoor lighting.
57. .10 per circuit for sign and outdoor lighting.
58. .10 per circuit for sign and outdoor lighting.
59. .10 per circuit for sign and outdoor lighting.

than one trip from his office for the purpose of inspecting any work on account of violation of rule, wrong address or any other irregularities caused by the Master Electrician or his agents, a charge of \$1.00 shall be made for each additional trip.

(B) On installation where several persons are concerned with the installation of electric conductors or appliances each party shall be required to pay the fees as established for such work.

#### SECTION 10.

Every person, firm or corporation before engaging in the business of doing electrical wiring or removal of electrical wiring and equipment shall comply with each and every part of this section, except as otherwise provided.

(A) Secure a Master Electrician's license from the Electrical Inspector of the City of Hope, Arkansas, which license shall be issued in the name of the person who qualifies for same.

(B) File a liability surety bond in a minimum amount of \$1000.00, which shall be a general public liability bond; provided that any such applicant not being a resident of Hempstead County shall file such bond in the minimum amount of \$5000.00.

#### SECTION 11. Application for License.

Any person, firm or corporation desiring a Master Electrician License shall make application in writing to the Electrical Inspector, requesting examination covering such license. Application shall be accompanied by fees as hereinafter provided.

(A) Written examination shall be given applicant within fifteen (15) days after filing application or as soon thereafter as possible. A grade of 75% shall be the lowest passing grade. Examination papers shall be reviewed and graded by the examining board as hereinafter provided for and applicant shall be notified of the results of same within 45 days after taking examination. Applicant failing in the first examination shall not be given another until the expiration of three months.

The Examining Board herein provided for shall determine the type of examination to be given. The part of the examination which shall be written shall be prepared by a graduate electrical engineer or by the staff of recognized school or engineering society, which question shall not be revealed until the time set for the examination. Such examination shall be conducted at the City Hall and under the personal supervision of the City Inspector and at least one member of the Examining Board. The Board shall determine the time allotted for the examination. Any applicant feeling aggrieved at the grade given him shall within 10 days after receipt thereof give written notice of protest to the Inspector, whereupon his papers shall be submitted to a graduate electrical engineer or a recognized school or engineering society selected by the Mayor for arbitration, and decision thereon, which shall be available in 30 days, shall be final. The cost of such review shall be paid by the applicant in advance.

(B) The examination fee for Master Electrician's License shall be Ten Dollars (\$10.00) and the registration fee shall be Fifty Dollars (\$50.00). In the event applicant fails to pass, the \$50.00 registration fee shall

## SOCIETY

Phone 1268 or 1269 Between 8 A. M. and 4 P. M.

## Calendar

**Saturday, April 7**  
Mrs. Jett Williams and Mrs. W. Williams will entertain at 8 o'clock Saturday morning with a breakfast at the Barlow Hotel. Miss Pollyanna Williams whose marriage to Orville Core of Little Rock will take place Sunday, April 8, at the First Methodist Church.

The rehearsal dinner for member of the Williams-Core wedding party will be given at 8 o'clock Saturday evening at Hotel Barlow by Mr. and Mrs. Alva S. Williams, Sr.

Miss Marguerite Blake of Shreveport and Miss Patsy McPherson will entertain with a luncheon at 2 o'clock Saturday in the home of Miss McPherson honoring Miss Pollyanna Williams, popular bride-elect.

**Tuesday, April 10**  
The Garland P. T. A. will sponsor a "Womanless Style Revue" at the high school auditorium Tuesday night at 8 o'clock. Tickets are on sale at the Garland school and Crescent drug store. Admission will be student, 15 cents and adults 35 cents.

**Tuesday, April 10**  
The Hope Iris Garden Club will meet at 2:30 o'clock Tuesday in the home of Mrs. J. W. Cunningham with Mrs. Paul Raley, assistant hostess. Mrs. J. A. Bowden will give talk on "Ceramics."

The Ambassador Sunday School class of the Garrett Memorial church will meet at 7:30 o'clock Tuesday in the home of Mrs. Wade Warren on Rocky Mound Road with Mrs. Grady Hairston as co-hostess.

The Lilac Garden Club of DeAnn will hold its regular meeting Tuesday in the home of Mrs. W. H. Burke with Mrs. J. M. Arnold as co-hostess.

**Wednesday, April 11**  
John Cain, Chapter of DAR will meet at 12:30 o'clock Wednesday at the Barlow Hotel. This will be a business meeting and is for members only. Hostesses will be Mrs. James LaGrassa, Mrs. Dick Watkins, Mrs. James Martindale and Mrs. Robert LaGrone.

**Intermediate Methodist Youth Fellowship**  
The Intermediate Methodist Youth Fellowship met Sunday evening April 1st, with John Amos presiding in the absence of the president. Plans were discussed for a Sacred Music contest to be held in early May for Intermediates of the Hope District. Donald McQueen and Betty Amos directed the group singing and Mrs. Sam Andrews provided the cold drinks for the supper.

The Meaning of Easter was the program theme. Vivian Ross read the Call to Worship and Mrs. Denver Dickinson reviewed a chapter in the "Big Fisherman."

Miss Williams  
Feted at shower  
Miss Pollyanna Williams, popular bride-elect was complimented at a miscellaneous shower given on Thursday night by Miss Jesse Clark.

ice Brown and Miss Mary Ethel Perkins in the home of the former. The Brown home was beautifully decorated with a profusion of red tulips, yellow iris and pansies. Games and contests were enjoyed by the group with Mrs. Grady Williams, mother of the bride-elect, receiving the prize.

The honoree was presented with a corsage of pink gladioli and blue dutch iris. She was the recipient of many lovely gifts.

Wedding bell cakes embossed with a pink rose and pink and white ice cream was served to the 20 guests by the hostesses.

Mrs. J. M. O'Neal

Hostess To

U. D. C. Meeting

Mrs. J. M. O'Neal entertained

members of the Pat Cleburne Chapter

of United Daughters of Confederacy

in her home at 2:30 o'clock

Thursday afternoon, April 5. Mrs.

John Hackler, Mrs. Pat Casey, Mrs.

Mary Duncan and Mrs. John S. Gibson, Sr. were co-hostesses.

The reception rooms of the spacious

O'Neal home were attractively

decorated with lovely arrange-

ments of blue iris, spirea and dog-

wood.

The meeting was opened by the

president, Mrs. C. S. Lowthorpe. The

secretary, Mrs. Pat Casey, read the

minutes of the last meeting and

Mrs. Gus Haynes read the ritual

and salute to the Confederate flag

and the pledge of allegiance to the

U. S. Flag. A treasurer's report

was given by Mrs. Mac Duffie.

Plans were discussed for the

state meeting of the Children Con-

federacy to be held here June 22.

The nominating committee sub-

mitted the following slate of new of-

ficers: president, Mrs. C. S. Low-

thorpe; first vice-president, Mrs.

A. E. Slusser; second vice-president,

Mrs. H. J. F. Garrett; third vice-

president, Mrs. W. A. Williams; re-

corresponding secretary, Mrs. A. W. Mar-

tin; corresponding secretary, Mrs. Pat

Casey; reporter, Miss Mary Duncan;

treasurer, Mrs. Mac Duffie; registrar,

Mrs. Herbert Lewallen; historian, Mrs. Fred Cook; re-

cororder of crosses, Mrs. A. C. Whit-

worth and poet laureate, Mrs. George

Andrews.

Mrs. A. W. Martin presented an

interesting program on "Military

Roads," using maps to illustrate.

The hostesses served a delightful

salad plate and coffee to 33 mem-

bers and two guests, Mrs. A. T. Je-

well and Mrs. Joannie McWilliams.

## Coming and Going

Mr. and Mrs. H. W. Hatcher, Mrs. M. I. Dillard and daughter Brenda Carol, and Mr. Wayne Bolton of El Dorado left Thursday for Biloxi, Miss., for a visit there with Captain and Mrs. K. B. Bryce and sons and Captain and Mrs. E. T. Bryce and sons of Columbus, Ga. They will return home Sunday.

Mrs. Robert Mitchell and Mrs. Ted Jones left yesterday for Dallas where they were called by the serious illness of their father, Mr. A. S. Witt.

Mr. and Mrs. Bob Russell and family and Mr. and Mrs. Cecil Kemp and daughter, Candace, left today for their home in Los Angeles, Calif., after a visit here with re-

## Oscar Winners Linked With Communists

Washington, April 5 — (AP) — The house un-American activities committee has linked several hundred prominent Americans — among them movie academy award winners Jose Ferrer and Judy Holliday — with what it described as a Communist "world-wide peace offensive."

At the same time last night, the committee intimated that many so named may have been unwitting dupes of the Red campaign, which it described as "the most dangerous hoax ever devised by the international Communist conspiracy."

In a forward to a 166-page analysis of Communist "peace" tactics, which it declared was intended to destroy American morale and shield Russian military intentions, the committee made provision for disclaimers by innocent persons.

"The committee having no desire to charge any innocent person with having Communist affiliations, will therefore publish the names of any individual who has withdrawn from these organizations or whose name was used by these organizations without permission or knowledge in a future report, if such person will communicate with the committee, giving the circumstances in his particular case."

A prompt denial came from Miss Holliday, whose portrayal of the dumb blonde in "Born Yesterday" won her this year's movie Oscar.

In a statement issued in New York, she declared she was "not a member of any organization listed by the attorney general as subversive. In any instance where I lent my name in the past, it was certainly without knowledge that such an organization was subversive."

Miss Holliday said she previously had made a sworn statement "to the effect that I am not now and never have been a member of the Communist party."

Both Miss Holliday and Ferrer were named among the sponsors of the Scientific and Cultural Conference for World Peace, held in New York in March, 1949. The committee called this an American front for a campaign which had its origin on a world-wide basis in 1947 with creation of the Communist information bureau — successor to the Communist international.

Among sponsors with alleged "Communist affiliations," both Miss Holliday and Ferrer were listed as having been associated with from five to 10 Communist-front organizations.

Ferrer, whose role in "Cyrano de Bergerac" won him the male academy award, was also named among 49 sponsors who have "given their open support to Communist candidates in election campaigns."

Ordinary steel is iron with a small alloy of carbon and manganese but other types of steel contain nickel, chromium, molybdenum, vanadium or wolfram. The ancients called tin "diabolus metallorum" or the devil among metals.

Allowing for evaporation, 28,320 gallons of water are required to irrigate one acre of land one inch deep.

latives and friends.  
Mrs. Lillian Davis returned to her home in Valiant, Oklahoma today after a visit here with her son, Mr. Jess Davis and Mrs. Davis.

## Starts Sunday at the Rialto

IRENE DUNNE, as "Queen Victoria," grants an interview to a street urchin in this scene from 20th Century-Fox's "THE MUDLARK."

## DOROTHY DIX

## Boy-Crazy

Dear Miss Dix: We have a daughter of 14 who is a problem to us. She is rather silly and quite boy-crazy. She thrives on the attention of the opposite sex and stops at nothing to get them. She is quite confident of her ability to attract young men, and thinks and dreams of nothing else. Although her mental capacity is not above normal, she wishes to appear older and more mature than she actually is. She considers herself very worldly wise. Will this lead into more complicated channels? And what can we do to prevent it?

## BEWILDERED MOTHER

Answer: Every mother who has a 14-year-old daughter has a problem that keeps her awake nights, and turns her hair gray, so you are not alone in your anxiety and uncertainty about how to deal with it.

Girls of 14 all have acute attacks of "boyitis," when they think of nothing else on earth but boys and dates and going places. Also when a girl is 14 she yearns for love, as we oldersters do for youth.

The highest compliment you can pay her is tell her that you thought she was 20. Her ambition is to look like a sophisticated woman of the world and be painted like a barn door, and her greatest earthly desire is for a black velvet evening dress.

## Be Patient

It is a phase of adolescence and it passes, and the important thing is for the mother to realize this and to deal with it with patience and humor. Try not to take it too seriously. Don't make issues of important things. If Sally spends hours doing up her hair like some movie actress? If she is bound to have her finger nails look like blood-red talons, and if her heart is set on wearing clothes too old for her, let her do it.

She will drop it when somebody laughs at her. Don't forbid the boys coming to the house. She will meet them on the street corners if you do. Just string along with her the best you can, laughing her out of some of her follies, ignoring a lot of others, and trying to steer her in the right way.

Don't worry over her too much, and don't despair of her. We have all been 14 and boy-crazy, but most of us got over it and have made pretty decent women.

Dear Miss Dix: A man asked me to marry him. He can provide for me very well and offer me nearly everything in the material way. However, we are of diametrically opposite backgrounds and religion. Mentally we are entirely different. I am interested in everything pertaining to politics, education, the theatre, books, etc. Sports are of more interest to him than they are to me. My problem is: Can I make a successful marriage with this man, or shall I take my chances on meeting one who will be more intellectually compatible? I am in my late thirties.

## SUZANNE

Answer: No marriage can be happy in which the husband and wife are not congenial. No material comfort that a husband can bestow upon his wife can atone to her for his not giving her sympathy and understanding. No physical attraction can keep people together who differed in their opinions and tastes and habits. The one indispensable thing is any man satisfied with a wife must like to do the same thing with her as he does with himself.

Hence it is always taking a long shot at happiness when two people of different backgrounds and different cultures marry. The final touch of danger is added when two people of different religions marry. In your particular case this hazard would be augmented by the fact that you evidently consider yourself much superior to the man you are contemplating marrying.

25 Years Ago Today  
From Files of Star of Hope

April 5, 1926  
Rev. Frank W. Garnett concluded his ministry as pastor of the First Baptist church in Hope by the services of yesterday, having recently resigned to accept the pastorate of the First Baptist church at Fayetteville.

Mrs. C. E. Royston, Mrs. J. J. Battle, Mrs. J. B. Shultz, and Miss Seymour of Fulton attended the sunrise service at the Presbyterian church Sunday morning.

A special committee composed of N. T. Jewell, E. F. McFadden, and J. W. Strickland have made preparations for a large crowd to attend the installation of new officers at the Hope lodge of Elks tonight.

April 6, 1926  
The April term of Hempstead County Circuit Court convened at Washington Monday with Judge James H. McCollum, presiding.

The boys of the Junior class met yesterday to organize a mustache club. A prize has been offered for the one growing the most handsome soap strainer during the month of April.

Miss Iris Armstrong, camp owner of Joyzelle in Northwest Arkansas will be a guest of Miss Mable Ethridge in this city on Thursday.

## Clubs

Blevins  
A discussion on short cuts in tailoring was led by Mrs. Lorraine Blackwood when the Blevins Home Demonstration Club met at the home of Mrs. C. F. Goodlett, March 22.

After the devotional by Mrs. Goodlett, the business was presided over by Mrs. W. D. Gorman, president. It was decided to bring socks and panties to the next meeting for the Crippled Children's Home. A recipe will be sold with a chance on the quilt for the local treasury. A Red Cross donation was given.

The highlight of the recreation period was the selling and wearing of Easter hats decorated and brought to the meeting. The recreation leaders also directed games. The hostess served refreshments carrying out the Easter motif.

Twenty-one home demonstration club women representing ten home

No woman is ever happy with a husband she looks down upon. Nor is any man ever satisfied with a wife who treats him as her inferior.

But one mistake women frequently make is in undervaluing a man's intelligence. They forget that it takes a better brain to know how to make a living than it does to write a paper for a women's club.

Dear Dorothy Dix: What did you think of single girls going with married men?  
W. J. J.

Answer: I think they lack both heart and brains. They show their lack of heart in being willing to steal a husband away from his wife and to break a sister woman's heart and orphan little children. And they show their lack of intelligence by not realizing that they are wrecking their own lives by giving their youth and their beauty and their love to a man they cannot marry.

## Musical Opens Sunday at Saenger

Broadway, Mecca of American show business, is indeed more than just a paved strip of glaring neon and spectacular animation and wide-eyed tourists straining for a glimpse of a celebrity. No, this heartbeat of the entertainment industry, glorified by the Ziegfelds and the Johnsons, may be likened to Sheherazade of the Arabian Nights—master story-teller with a thousand and one yarns about the hopes, joys and heartbreaks of those who seek their fame and fortune within its boundaries. And now, one of these fascinating tales has been set to music in a glowing screen tribute to the Great White Way.

"Lullaby of Broadway," Warner Bros. Technicolor musical extravaganza which opens Sunday at the Saenger Theatre, starring singing and dancing stars Doris Day and Gene Nelson, supported by comedians Billy De Wolfe, S. Z. Sakall and Ann Triola, and Gladys George is the heart warming story draped against a background of some of the most lavish productions number ever filmed.

The picture which centers around show folk and their often hilarious attempts to make the grade, is well laden with such all-time favorite songs as "Zing Went the Strings of My Heart," "Somebody Loves Me," "In A Shanty In Old Shanty Town," "Just One Of Those Things" and the title tune.

Also featured in "Lullaby of Broadway" are Hanley Stafford, Florence Bates and the Page Cavanaugh Trio, well known night club artists.

## 'Mudlark' Featured at the Rialto

Opening Sunday at the Rialto Theatre is Darryl F. Zanuck's presentation of "The Mudlark," starring Irene Dunne as Queen Victoria. Selected for exceptional tribute in being chosen this year's Command Performance picture shown in London before the King and Queen, "The Mudlark" has been enjoying unstinting acclaim from the press and public of two continents.

Filmed in authentic British settings by Twentieth Century Fox, "The Mudlark" tells the legendary and romantic tale of a kid who wanted to sit on a queen's throne. Based on a novel by Theodore Bonnet, the story finds Andrew Ray, playing the young titular mudlark, a poor young lad of the slumside London Thames River region, in the Victorian era, gaining entrance to the royal castle and upsetting more than palace regality before he's through. The boy becomes a political cause celebre when Disraeli, the queen's Prime Minister, suspects him as part of a plot, but the screen play resolves itself when the lad is befriended by the queen herself, who realizes it is only affection the motherless child seeks.

Lavishly screened by producer Nunnally Johnson, who led the trek abroad for on-the-spot location shooting, "The Mudlark" offers the glamourous, established Irene Dunne, choice assignment. Victoria has been essayed on stage and screen before, but never by a film actress of Miss Dunne's standing. Likewise the Disraeli role has been immortalized on film and on stage many times, by actors from George Arliss to John Gielgud. A latter day figure of London stage, and more recently screen, prominence, Alec Guinness, is featured in the forthcoming Disraeli impersonation.

The boy of "The Mudlark," Andrew Ray, bows into films via a trick of casting fate. Twentieth Century-Fox's Ben Lyon studio official in England, was interviewing Robin Ray, Andrew's elder brother, who proved too old for the part, when Andrew came along for the ride.

Also featured in "The Mudlark" are Finlay Currie, another "Great Expectations" veteran whose stateside appearances in other English films like "Trio" and "The Black Rose" have made him a great favorite; Beatrice Campbell, Anthony Steel, Raymond Lovell, Anthony Fielding and Constance Smith. The latter, a new face and talent, has a new lead in an up-rated hit, gets a lead in an up-rated hit, a new lead in an up-rated hit, a new lead in an up-rated hit.

"The Mudlark" was directed by Jean Negulesco, noted player of films like "Three Came Home," "Three Strangers," "Under My Skin" and "The Mask of Dimitrios."

Limited Powers  
The President of the United States does not have constitutional power to pardon state prisoners; his powers extend only to federal prisoners.

demonstration clubs attended the tailoring class conducted by Miss Sue Marshall. Extension Clothing Specialist from Little Rock, Wednesday, March 28, at the home of Lorraine Blackwood, Home Demonstration Agent, from 9:30 a. m. until 3:30 p. m.

During the day Miss Marshall demonstrated cutting patterns for tailored coats putting a lining in a tailored coat and other tailoring problems.

Clubs represented at the tailoring class were: Columbus, Ozark, St. Paul, Evening Shade, Baker, Liberty Hill, New Hope, Green Valley, Center Point, Monroe, and Hope.

## Senators From Arkansas Differ

Washington, April 5 — (AP) — The two Arkansas senators — McClellan and Fulbright — lined up on opposite sides in yesterday's voting on resolutions by which the senate asked for congressional approval before President Truman sends additional ground troops to Europe.

McClellan voted with the majority which wants a congressional check on the President; Fulbright, with the minority favoring a free hand.

An amendment to the resolution favored use of Spanish and other troops in anti Communist Western Europe.

In a similar vote on the resolution, which would be put to a vote for consideration, McClellan voted with the majority, but this time most Democrats were there, too.

McClellan voted with the majority which wants a congressional check on the President; Fulbright, with the minority favoring a free hand.

Fair  
Enough

By Westbrook Pegler  
Copyright, 1935  
By King Features Syndicate.

This is a continuation of a slightly condensed version of a notice to the boss unions that, under the present war mobilization system, they will not be allowed to interfere with production or otherwise stimulate inflation. It is a carefully considered statement of public policy toward unions from a high authority.

The defiant attitude toward the union parasites here expressed is significant because President Truman has defied them by holding out against their demands for the last six weeks. This is the first forthright repudiation of the high racketeers of unionism that has come from any authority in the government in the last 20 years. It may indicate a decision to go to the mat with the union bosses on the issue of whether they or the lawfully elected administration of the national government shall exercise authority.

As in yesterday's piece, I again take some liberties with the text, tightening up the prose but without changing the meaning of this emancipation proclamation.

It reads:

"Union officials have been terribly worried about these three developments:

"1.—Union membership remains at about 15 million out of a total work force of over 60 million. Since the close of the war the civilian work force has increased by over nine million, but the unions have been able to persuade less than 332,000, or less than four per cent, to become and remain members.

"This failure is the more pronounced because the unions have spent millions on organization work, and have had almost unlimited support from the government in the organizing efforts, and supplementary help from educators and the clergy. There has been no opposition from employer and consumer, and practically no form of coercion to compel workers to join unions was considered too outrageous by the police and the courts. The union leaders have been looking for some method of forcing the remaining workers to join, particularly those employed by small business where organizing and dues-collecting were too ineffective and expensive.

"2.—Voters at the polls have rejected top union official a political and economic mentor of the nation. The income of the union is estimated at between \$300 million and \$500 million a year. As much of it that is not spent in administration and in efforts at further organizing has gone to pay political officials who spend gradually all their time trying to organize political action. This shift from organization on wage, hour and working condition to political action in Washington, on nationwide basis was apparently prompted by frustration over lack of further growth and power. In addition to fund and personnel they had at their command literally millions of more or less otherwise idle government employees supporting common candidates. This very indorsement of the labor unions seem to have such an adverse effect that an unhealthy majority of the candidates for office openly campaigned for the unions were defeated. This seemed to dampen the hopes of the union officials.

"3.—President Truman seems to have cooled to the point of being

Harris Rates  
Senators as  
Much Better

Jacksonville, Fla., April 6.—(AP)—Mackey Bucky Harris rates his Washington Senators a better fifth-place club than last year. That just about tells the story.

Harris, of course, aims toward the distance first division. Every body does in the spring. But he is realistic about the 25-game gap between fourth and fifth last season. Only a complete collapse up front could cause Washington into the select four.

"We're going to have better balance," said Harris, once "the wonder" but now senior manager in the league in senior of service.

"I think the race is among New York, Boston and Cleveland. A few breaks and any one of the three could win it."

Inching to the Senators' weak out department. Unless Jack Griffith makes a deal before opening day the club will go into the season without a proven first line receiver. Mickey Grasso (.287), a fine rookie last season, is the nearest approach. He's No. 1 at the moment.

The infield should be stronger than last season with First Baseman Mickey Vernon (.281) and Second Baseman Cass Michaels (.265) available from the start.

Eddie Yost (.205) at third and Sam Dent (.239) at short round out the infield. Yost had an exceptional season in 1935 when he was rated right behind Detroit's George Kell among the league's third basemen.

Infielders Gene Verble, drafted from Atlanta when he hit .279 and Willy Miranda, a Cuban rookie who batted .248 at Chattanooga, have impressed Harris.

The outfield is Harris' strong point with Gil Coan (.303) in left, by Noren (.295) in center and Sam Mele (.274) in right. Mike McCormick, a veteran National leaguer who hit only .232 with the Chicago White Sox last summer, and Sherry Robertson (.200) are the reserves.

Bob Kuzava .9-10 can be the ace of the pitching staff. The 27-year old left-hander is considered one of the top young southpaws in the league.

Harris will start Kuzava, Gene Bearden (.4-8) Sid Hudson (.14-14), Sandalis Cusqueira (.7-8) and Al Smith (.4-4) or Conrado Marrero (.6-10). Mickey Harris (.3-8) against the Chicago White Sox last summer, and Sherry Robertson (.200) are the reserves.

There were four tables of players with Mrs. Clifford Arnold winning the high score favor.

Delicious refreshments were served to thirteen club members, and guests Mrs. S. B. Scott, Mrs. R. L. Blakey Jr., and Mrs. T. M. Bemis. Tea guests were Mrs. Carl Dalrymple, Mrs. J. B. Franks and Mrs. Harold Parker.

L. L. Mitchell was a Monday business visitor in Hope.

T. Sgt. and Mrs. Hayt Haynie of Memphis are the guests of Mr. and Mrs. Brodie Haynie.

Mrs. R. P. Hamby was the Monday guest of relatives in Fulton.

Mr. and Mrs. Homer Burke and children Susan and John of Mutton Bl. are spending the week with Mr. and Mrs. Howard Burke and Mrs. Carl Burke.

Mr. and Mrs. Frank Palmer announce the arrival of a son, William Howard, on April 2 at the Cora Donnell Hospital.

ated Press in a national poll of newspaper and radio sports editors to screen charter candidates for the National Football Hall of Fame at New Brunswick, N. J.

Twice picked All-America while starring from 1903 through 1906 at the University of Chicago, Eckersall was a daring, elusive runner, spectacular drop-kicker, punter, tucker and field leader.

Those were the days when deaths and crippling injuries resulting from massed play by big, ponderous brutes had football on the ropes and its leaders had to rule out mass formations and huddling.

Eckersall died at 46 on March 24, 1933, a victim of heart attack. During his collegiate career, he established punting and drop-kicking records. He performed the astounding feat of kicking five field goals in two separate games. His punts always sailed 32 yards or better.

There is a great hue and cry about Charles E. Wilson, Sidney Weinberg and others having come to their top posts in mobilization from top posts in large business organizations. They were chosen for the personal honor, of course, but especially for their proved ability to retain responsible posts in industry. Eleven top union officials had top mobilization positions where they could exercise their proper influence for those they represent. But they walked out because they couldn't dominate all policies affecting everybody and everything. They want manpower put into the department of labor, which helps along the service of union officials and promotes their efforts to extend their power beyond the one-fourth of the workers now in unions.

Around the  
Baseball  
Training Camp

By The Associated Press  
San Antonio, Tex., April 6.—(AP)—The New York Yankees are whaling the ball in their exhibition games. Three players are hitting over .400 with more over .300. Hank Bauer leads the club with .439; rookie Mickey Mantle follows with .437 and Gene Woodling, who hit two homers against San Antonio last night, has .421. Cliff Mages has .345 and Joe DiMaggio .327. The Yanks beat San Antonio, 13-10.

San Antonio, Tex., April 6.—(AP)—The St. Louis Browns beat a Brooke General hospital squad, 14-9, in an exhibition game here yesterday but got little help from three former teammates.

Dick Kokos, Owen Friend and Rocco Ippolito, now in military service, fused a six-run rally in the eighth to put the soldiers ahead, 9-5. The Browns got nine runs in the ninth.

Kokos got three hits in the game, two going for triples. He drove in three runs. Friend and Ippolito each had one hit, but they came in the pinch.

Houston, Tex., April 6.—(AP)—Manager Marty Marion hopes to retain Pitcher Joe Presko on the St. Louis Cardinal roster when the season starts.

Presko, who is 22, struck out 155 men, high in the Texas league, last year. He was in 36 games, only four of them in relief, and he completed 21 games.

The right-handed player is slated for mound duty today when the Cards meet his former Houston teammates.

August, Ga., April 6.—(AP)—Boston's Red Sox are waging rain or something else will interfere with today's scheduled exhibition against Augusta of the Class A Sally league.

Why? Because Ellis Kinder is due to start a game. Kinder has been named several times to start and if he didn't get sick or hurt the game was washed out.

This will be the Bostonians' third game against South Atlantic league competition. They bashed Savannah 15-0 yesterday after losing by one run the day before to Jacksonville.

Oklahoma City, April 6.—(AP)—The Boston Braves "plane" squad will fly to Denver, Colo., today, weather permitting, to oppose their farmhands of the Class A Western league.

They were due to league here last night but bad weather reports from the Colorado City grounded them. Max Sukonait is due to start pitching for the tribe and probably will be followed by Bob Hall. Both are right-handers.

The National leaguers' "train" squad was rained out of its game with the White Sox at Shreveport, La., and will try again today at Monroe, La.

Jacksonville, Fla., April 6.—(AP)—Will it be the Philadelphia Phillies and the Brooklyn Dodgers fighting it out again for the National league pennant?

Many of the early prophets think so. Although admitting that exhibition games don't prove too

much, they think the Phils-Dodgers series which ended yesterday provided a pretty good tipoff on what's to come.

Brooklyn took yesterday's game, 5 to 4, in 10 innings, evening up the tightly fought series at three apiece.

was here, then Andy Tanner will have him indicted sure!

Rose sat up straight and took her leg down off the chair.

"I thought you said there couldn't be another trial?"

"No, Rose, I told you that you couldn't be tried again. That doesn't mean your accomplice—or anybody else can't be tried for Barney's murder. But don't worry. I won't mention what you've told me to a soul."

"Not even Star Williams?"

"I said a soul. Star would be indignant if anybody even suggested that he possesses such a thing."

She got up in alarm. "Don't leave! I don't want to be left alone!"

"You must have lots of friends left, Rose, especially now that you're out of jail with a couple of million bucks to spend. Larry Stone for example?"

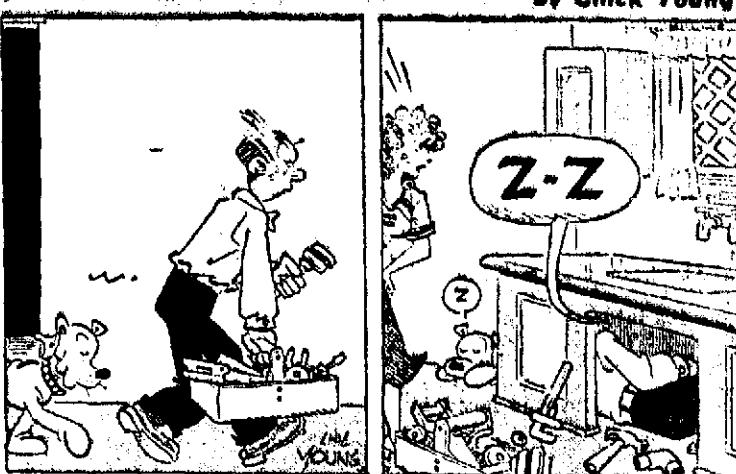

Her face darkened. "No, that's all over. Of course Larry was right, saying that I should leave him out of the picture for my own good. But he was awfully quick to think up the idea. No, Larry's the last person in the world I'd want to be with. You'll do fine."

## Sunday School LESSON

By William E. Gilroy, D. D.  
Horace Greeley advised young men to go west, while our American West was still comparatively unsettled. But ages before Greeley, or the existence of our American Continent was even suspected, a young man in the far off Eastern country of Ur in Chaldean heard an

angelic voice urging him to go West, and he set out for distant Palestine. So Abraham was not just an ambitious young man, seeking to strike out for himself, and attain material success in a new land of opportunity. There was a deeper meaning to his leaving home and his quest. Apparently that environment was idolatrous, but Abraham had a vision of a spiritual God. His quest was for a new environment of life and faith.

It is often suggested that the God of the early Israelites was a tribal deity; but there is something larger and finer in the God of Abraham's faith. Two passages, at least, make this plain. Abraham's prayer for Sodom (Genesis 18:23-33) reveals a high conception of God, a being with whom man could reason in the faith that the God of all the earth would do right. And only a man with a high moral sense, with a vision of a good God, could have acted as Abraham did in the matter of the threatened strife with Lot.

## News of the CHURCHES

### FIRST PRESBYTERIAN

East Second St.  
Rev. L. T. Lawrence, Minister

10 a. m. Sunday School, James H. Miller, Superintendent, Miss Ruth Lewis, Secretary-Treasurer. Morning Worship, 10:55 a. m. This will be a Communion Service. All members of the church are urged to be present to observe the Sacrament of the Lord's Supper. The choir under the direction of Mrs. R. L. Gosnell will sing an anthem "They Took Jesus and Led Him Away" by Holton.

P. Y. P., 8:00 p. m.  
Mrs. Dorsey McRae will talk to the Young People. Supper will be served by Mrs. Jim McKenzie and Mrs. Olin Lewis.

## Mormon Church Leader Dies in Utah

Salt Lake City, April 6.—George Albert Smith, the kindest spoken eighth president of Latter-Day Saints (Mormon) church died last night at his Lake City home.

Death came on his 81st birthday as members of the mighty Mormon empire flocked into Salt Lake City for the church's 21st biennial conference.

President Truman commended that this nation has "lost a great man."

Church president slightly more than six years, Elder Smith, born in 1870, died of a heart attack following a virus infection attack, health ebbed since he returned from hospital confinement in February.

Funeral services will be held Saturday at the famed, oval domed Mormon tabernacle on Temple Square, a short distance from the family home where President Smith was born April 4, 1870.

At the age of 75, Elder Smith became church president May 1945. He took office a week after the death of his predecessor, Herbert W. Grant, to become the spiritual leader of a million Mormons.

David O. McKay, who like President Smith has traveled the world as a Mormon missionary, is the likely successor to the high office.

McKay, who served as second counselor to President Smith, gains his status as president of the council of twelve apostles, under normal procedure, he will be selected president of the church. However the council is not bound by precedent.

## Rotation Plan Starts This Month

Washington, April 6.—(AP)—The army will begin about the middle of this month to bring back from Korea men who have been engaged in the fighting there. They will be replaced by fresh troops.

Secretary of the Army Pace announced the "rotation" plan today. He said Gen. Douglas MacArthur will decide policy on selection of men to be sent home. The first battle veterans should be sent home within a few weeks, Pace said.

In a statement, Pace emphasized that the rate of rotation will depend upon both the flow of replacements to the war theatre and upon the necessity to maintain the combat effectiveness of all units in Korea.

The exact number of men to be rotated in the early stages of the program has not been determined, Pace added.

He said the exchange of men for battle veterans will eventually run to about 20,000 a month. The army said this may be reached by early summer.

The rotation plan calls for a modern direct to the United States of as many troops as possible, particularly in the early phases of the program.

Later, some men from Korea may be re-assigned to garrison duty in Japan or other parts of the Far East command, such as Okinawa. Even these garrison troops will eventually be brought back to the United States when the outward movement of troops is flowing smoothly.

All veterans returned to the United States will be given a chance for home leave before proceeding to their next duty station.

The army department has had the rotation scheme in mind for months. There have been some men have now been in Korea since the outbreak of the fighting last June.

Although General MacArthur will have the final decision as to which troops are to be returned here, a military department official said those who have been in Korea longest likely would be the first to leave.

## Scholarship Fund Set Up

Little Rock, April 6.—(AP)—A industrialist, who said he was going to go to work at 16, is setting up a scholarship for students at the University of Arkansas.

The benefactor's home town of Fayetteville.

L. B. Smith, 54, the donor, said he was influenced not only by his early entry into the working world but also by the tragic death of an associate, who left four small children.

Last December, P. V. Bate, a Payetteville, was killed in a Colorado while piloting a plane owned by Smith.

"I hope Bate's children will apply for the scholarship someday," Smith said. "And I hope it will help these children obtain their education."

Smith, who moved to Fayetteville about a year ago from Miami, recently purchased the latest claims against the New York Car Wheel company at Buffalo. He has other business interests near Buffalo and elsewhere and also is engaged in oil and gas prospecting.

Establishment of the scholarship, to be known as the L. B. Smith scholarship for scientific study, was announced here today.

Each helped

Two or more messages can be sent simultaneously over the same telegraph line. Dr. Gintl devised the duplex system in 1859 and Edson the continuous system in 1874.

# REMEMBER

the

# Sabbath Day

to keep it

# HOLY

The Ten Commandments, which do you suppose gets the larger treatment? Reverence of the divine order for a day of rest and of worship gets chief emphasis. Moment's reflection makes the reason clear. The man who does not take time to worship God will likely forget to worship the God of his fathers; he who does not worship God cannot be expected to regard his neighbor and his neighbor's goods. Therefore, at the very center of religion and of morality, stands the Sabbath day, the day which is the center of your soul.

Argument of Moses. God could get His work done in six days, even the universe and all its creatures. Surely you do not need the seventh day for the work of your doing.

Under the command of God, you are a part of His creation; there is nothing more important for you than that you remember God and your relation to Him. The Sabbath is a time of remembrance. The church bell, the rest from daily toil, the quiet in the busy street, the need of your own soul, unite to remind you of your Sabbath day. The law gave commandment His people to keep this one day sacred to Him. It is for your own profit to rob God of the time which belongs to Him.

The Sabbath is an ancient command, never more important than today. The press of the world and the secular was never more insistent; things want to get in the saddle and the secular child of the highest life who remembers the Sabbath most is most likely to remember to attend his church.
